DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. This application is in condition for allowance except for the presence of withdrawn claims 24 and 25 directed to Group II non-elected without traverse. Accordingly, **claims 24 and 25 been cancelled.**

REASONS FOR ALLOWANCE

3. Claims 11 – 23 and 26 – 36 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest, either singularly or in combination, at least a semiconductor device comprising a semiconductor chip stack on a rewiring plate, the underside of the rewiring plate forming the underside of the semiconductor device; an external contact area having a plurality of individual external contact area regions which are physically separate from one another being arranged on the underside; each of the individual external contact area regions being assigned to a different one of the individual semiconductor chips in the semiconductor chip stack; and the individual external contact regions of the external contact area being electrically connected via a common external contact. Saeki (U. S. Pub. No.

Art Unit: 2815

2003/0,122,237) and Sakuyama (U. S. Pat. No. 6,018,462) teach a semiconductor device comprising a semiconductor chip stack on a rewiring plate, the underside of the rewiring plate forming the underside of the semiconductor device; an external contact area having a plurality of individual external contact area regions which are physically separate from one another being arranged on the underside; and the individual external contact regions of the external contact area being electrically connected via a common external contact. However, Saeki and Sakuyama do not teach each of the individual external contact area regions being assigned to a different one of the individual semiconductor chips in the semiconductor chip stack as set forth in claims 11, 19, 26 and 33.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
